Communicating with School & District Leaders

When students and parents have questions or concerns, it is imperative to uphold open lines of communication. Many issues can be addressed directly with the educator involved in the class or program before escalating them. Email or telephone communication is an effective means of facilitating this interaction. To assist parents with their questions or concerns, we have created a "chain of command" process. The leadership and staff of Oak Park Schools will adhere to this communication structure and encourage families to reference it when initiating contact.
